

We are pleased to invite you to the *Third Latin-American Meeting on Environmental Psychology: Environmental Psychology and Sustainability* (TELPA 2011), which will be held in Tlalnepantla, Mexico State, November 21 through 25, 2011. This meeting is organized by the Iztacala Faculty of Higher Studies, UNAM, joined by UPAEP, the Municipality of the City of Tlalnepantla, and supported by The International Association of People Environment Studies (IAPS).

The event constitutes a unique opportunity to participate in an international meeting where notable experts in the diverse fields of environment psychology, from Mexico, Brazil, Italy, Spain, Venezuela, Colombia, France, The United States, Chile and Scotland will present and discuss topics such as sustainable behavior, sustainable environments, and the actions aimed at promoting biological, psychological and social sustainability.

Some of the Meeting topics include:

- Proenvironmental behavior and sustainability.
- Environmental law and behavior.
- History, perspective and prospective in Environmental Psychology.
- Environmental communication, credibility and citizenship.
- Life spaces, attachment and identity.
- Participatory research: environmental education, territoriality and social action.
- Operationalization of promises in the context of open and green spaces for the elderly.
- Dialectics between behavior in the built and natural environments.

Also, a tribute to Dr. Gabriel Moser will be conducted during the event.

TELPA 2011 will meet or exceed attendants' expectations by providing a state of the art experience in environmental psychology for the participant researchers and the exposition of various strategies and methodologies for coping with environmental problems.

TELPA 2011 is aimed at all professionals (researchers, teachers, students and the general public) interested in the human-environment relationship. Its expected benefits include the acquisition of knowledge, tools for professional development, and the provision of approaches for environmental problem-solving and the development of sustainably-oriented lifestyles. A particular benefit of the meeting is the discussion of the particular views and proposals of Latin American psychologists, in dealing with environmental and conservation psychology issues.

Tlalnepantla de Baz, the venue of this meeting is one of the 125 municipalities of the Mexico State. It is located north of the metropolitan area of the valley of Mexico. Currently, it is one of the most industrialized and a major economic-activity center nationwide. The municipality is bordered by the Federal District (Mexico city) in the West. Mexico City is located in the center of the Mexican Republic, which is composed of 32 federal entities. The Mexican capital has been the center of history, education, and culture for a very long time. It serves as a major hub for textile, materials and various industries, with several manufacturing plants. In addition, the city is a point closely connected to numerous cultural heritages and tourist attractions displaying the Mexican culture.

More information regarding the TELPA 2011 and the meeting's seat is available at the official website: <http://www.telpa2011.org.mx>. Please visit this website regularly for updated news and information.

We look forward to seeing you in Mexico, during our Meeting.
